

National Association for County
Community and Economic Development

50TH

NACCED Annual Educational Conference
and Training

September 8-11

2025

Sponsorship Opportunities

Hosted By:

Welcome to Maricopa County!

The National Association for County Community and Economic Development (NACCED) is an association of nearly 100 local governments administering federal funds for housing, community, and economic development programs. Since 1978, NACCED has acted as an advocate for member municipalities and delivered education, training, and technical assistance through our network of development professionals and private-sector partners.

NACCED's Annual Educational Conference and Training serves as an opportunity for member professionals to present their work, network with peers, and learn about the latest strategies in affordable housing, community, and economic development.

The Annual Educational Conference and Training is made possible by our sponsors. In addition to receiving the thanks of our members, sponsors receive the opportunity to showcase their services through space in our exhibit hall and ample opportunities throughout the entire conference.

Elevate your organization with these sponsorship opportunities...

Program Advertisements
